## FOUR DEPUTIES COULD BE USED BY U. S. MARSHAL

Official Says More Assistants  
Needed to Cope With Vice  
and Booze Problems

In order to effectively carry out a campaign against the prevalence of commercialized vice in Honolulu, as well as against the illicit sale of liquor to men in uniform, U. S. Marshal J. J. Sniddy will need at least four additional deputy marshals, he pointed out yesterday.

Taking what time he could from other pressing duties at his office, as well as his duties as federal disbursing agent for the territory, the marshal has made a number of personal investigations of vice conditions in the city and raided a house in Cottage Grove, King street, night before last. He has secured the location of at least a dozen vice and illicit booze resorts, which are to be attended to as soon as he can find the time.

The marshal pointed out today that his quarterly reports will soon be due and that it will take nearly all the time of himself and his two deputies to complete the report. Aside from this, there is the usual month-end salary payments to be made and book work to be attended to, all of which takes up nearly all of the time of the three men.

"I could use at least four additional deputies," says the marshal.

## BANDSMEN ARE UNGRATEFUL, IS MAYOR'S VIEW

"They are an ungrateful lot," declared Mayor Joseph J. Fern, speaking of the members of the Hawaiian band who have threatened to resign the moment H. Robert Baker, newly-appointed bandmaster, takes charge on November 1.

"Some years ago some of them quit when the moving pictures came here and then when the moving picture game died down they were back here asking me to put them to work and I had the hardest time in the world persuading Bandmaster Berger to let them come back," says the mayor.

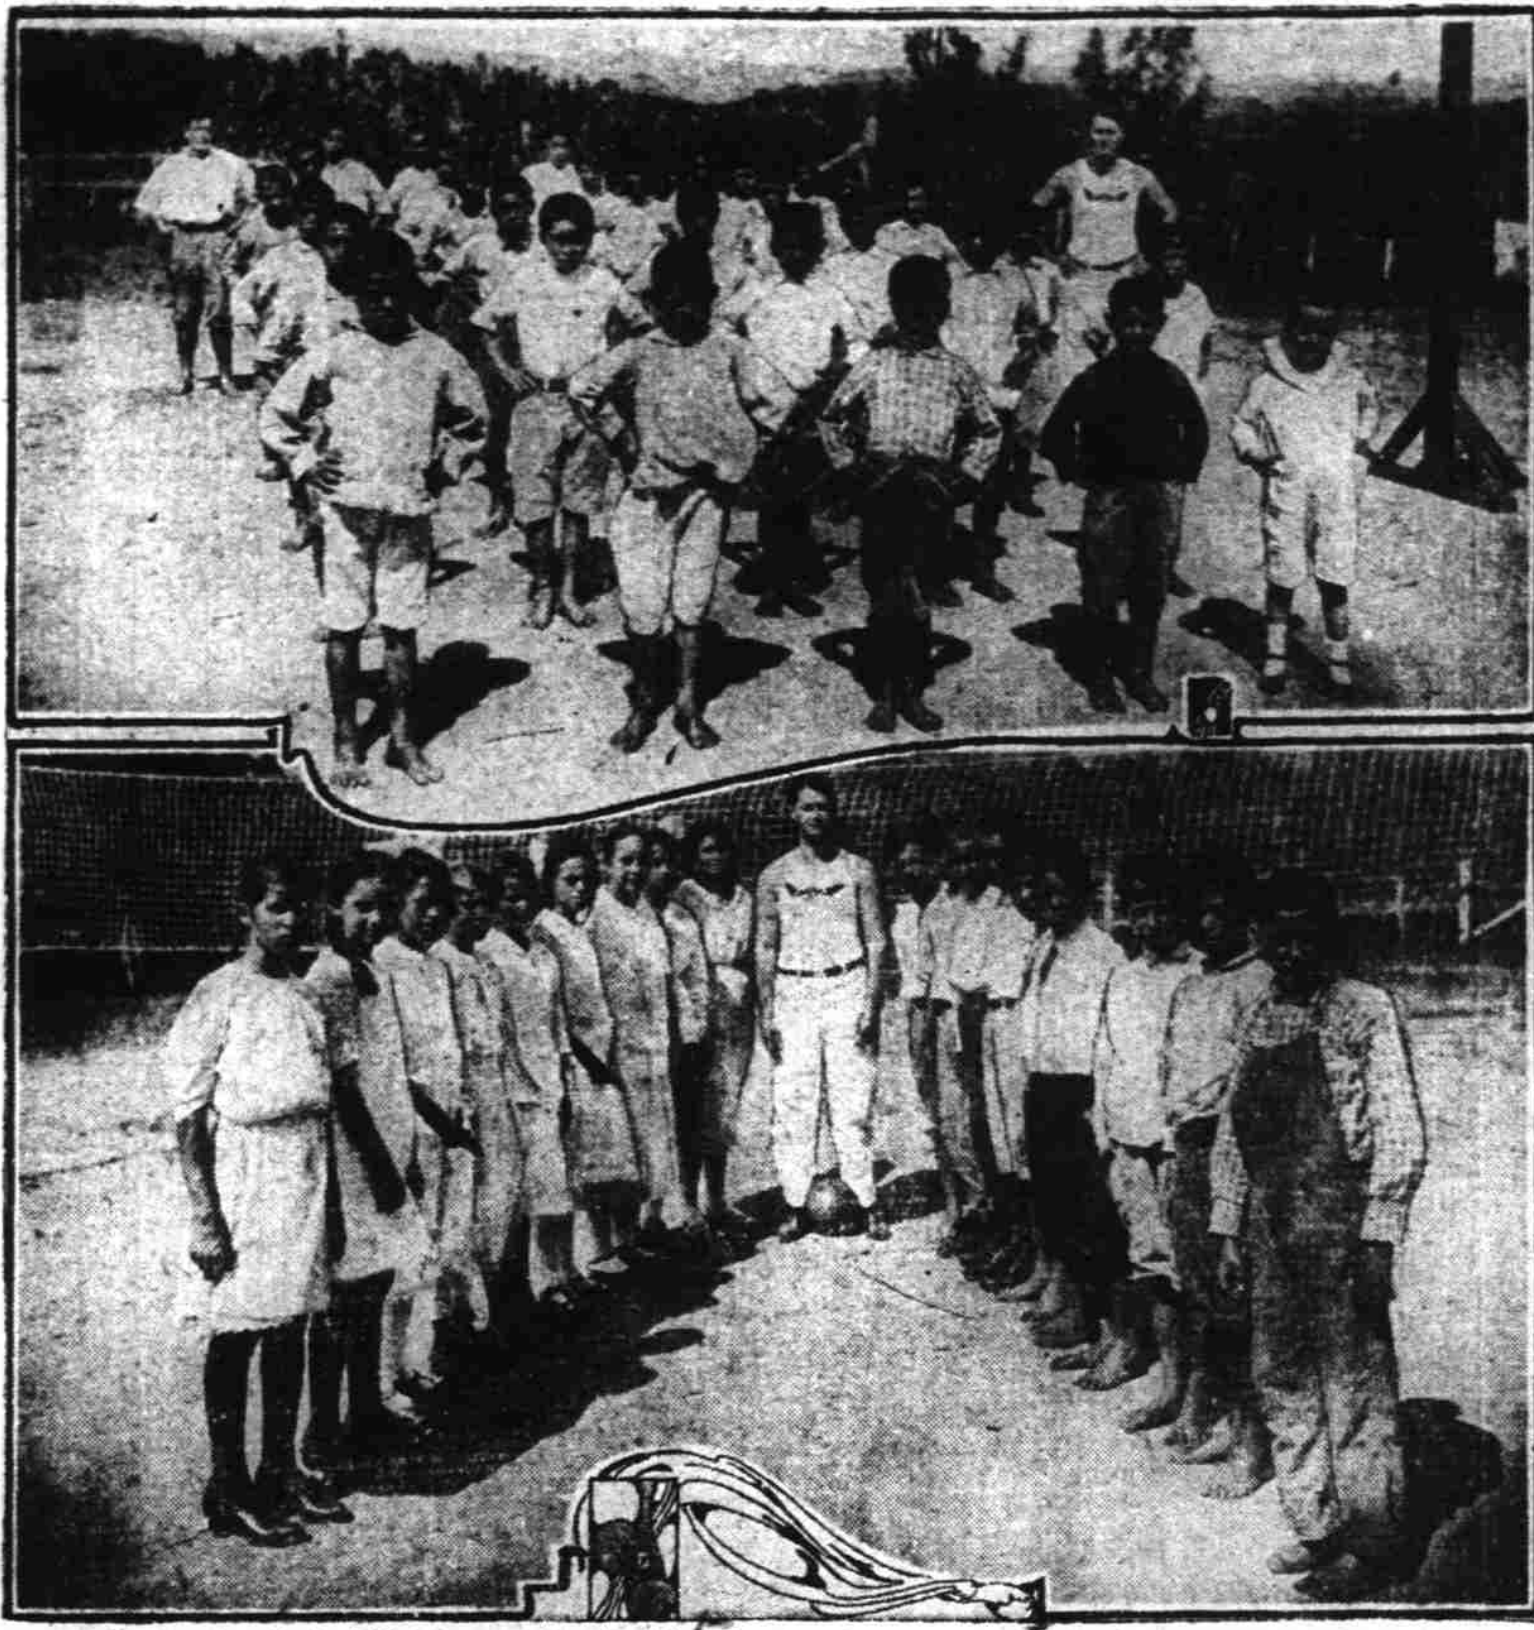

"And this is the same crowd that wants to quit now, eh? Well, I think they're foolish. That's all," he said.

## STORM DRAIN CONTRACT IS APPROVED BY MAYOR

Mayor Joseph J. Fern yesterday approved and signed the contract made by the board of supervisors with Foster & Kent for the construction of the College of Hawaii storm drain to cost \$15,450.

The British government is again buying shells and other munitions in American markets. Inquiries sent out for bids on an order for about \$120,000,000 worth of shells.

## COURT CALENDAR TO BE CLEANED UP FOR ALL TIME

General order in the form of invitations has been issued to the judges of the supreme court, circuit courts, former police magistrates and all attorneys to appear before Police Judge Harry Irwin on Tuesday, October 16. They are wanted there in order to have their names stricken definitely from the civil cases which they represented during the former administration of police court.

According to A. V. Gear, chief clerk, there are 268 civil cases, which have been continued from time to time until moved on. About one thousand dollars' worth of costs is involved in these cases. And unless the attorneys interested appear personally before Judge Irwin for final disposition of their cases, they will be ordered stricken from the calendar forever.

Judge S. R. Kemp of the circuit court, according to Clerk Gear, is the only attorney in Honolulu whose name does not appear in any of the cases involved.

For the benefit of the attorneys, the calendar, consisting of 60 type-written pages, is hung conspicuously on the main wall of police court. It is arranged alphabetically.

Criminal Calendar Cleaned Up  
Joseph Nobriza, bailiff in police court, stated this morning that his calendar has been cleaned up to date. There is only one criminal case on his book for Monday, and when that is disposed of his book will be declared "clean sweep."

## RESEARCH WORK BRINGS PROF. GREGORY OF YALE TO HAWAIIAN ISLANDS

Prof. H. E. Gregory, noted geologist and head of the geological department of Yale University, arrived in Honolulu on Wednesday to consider the advisability of taking up permanent research work here. He came to Honolulu at the instance of local Yale men.

That Professor Gregory will find the islands so rich in opportunity for research work that he will sponsor a movement to have a permanent station for that work established here, is the hope of the local Yale men. John R. Galt, who was instrumental in bringing the professor here, will aid him in starting his work.

## ROGER QUEVILLON TO ENTER AERO SERVICE

Roger Quevillon, second son of Madame A. Quevillon, who has been in the territory for the last three or four months following his profession of dentistry, left Tuesday to enter the U. S. aviation corps. Paul Quevillon, his brother, is now a corporal in the aviation corps.

Madame Quevillon will remain in Honolulu, and will continue her classes in French at the Y. M. C. A. and the Y. W. C. A. for the benefit of French orphans. Madame Quevillon gives her services free to this good work, this being her personal contribution to the cause of the Allies.

## 'Y' NIGHT SCHOOL OPEN TO STUDENTS

## HALTON BEST-BET FOR PROMOTION WORK SAYS FORD

A. H. Says San Francisco is  
Now Claiming Pan-Pacific  
Union as Its Own

By A. H. FORD

SAN FRANCISCO, Sept. 18.—Halton is getting an excellent man to head his promotion work in Frederick J. Halton, and I trust that every friend of mine in Honolulu and every friend of the Pan-Pacific movement will extend to him the right hand of fellowship. He is not a malhail, he has been working for Hawaii for years, he puts up the best illustrated lectures on the islands I have ever seen or heard, and I envy him his effective way of doing things.

The success of the Pan-Pacific banquet here, and it was a success, was due largely to the splendid work and cooperation of Mr. Halton. I have worked with him in harness now for two months and I know what I am talking about when I say that Halton is fortunate. I thought I could get people to do things, but I take off my hat to Mr. Halton, and trust for the sake of Hawaii that he will be sent up to the coast for several months of each year. Hawaii has got a good man, now let him alone to work for Hawaii.

Now something about that Pan-Pacific banquet. Everybody that was anybody in San Francisco was there. John H. Rosseter of the Pacific Mail had two tables filled with friends. Avery of the T. K. K. had his table. McMichen of the Pacific Coast S. S. Co. had a table full of guests, as had Jackson of the Great Northern S. S. Co., and Matt Linsey of the Matson Navigation Co., and Wallace Alexander of Alexander & Baldwin, and of course Sunny Jim had his table, graced with Jim Kennedy and other Honolulu lights in evidence. Every Chamber of Commerce, of every race, in town, had a table, all the Pacific nationalities had their tables, the Canadian club had its table and the Foreign Trade club turned out forty strong—this club has adopted me. Mulgart and the Olympians were in evidence, the bankers took a table for nine, and showed up seventeen strong. The Commercial club, and the Commonwealth club and the Rotary club had their tables and even the Hundred Percent club did itself proud, the Pioneers of California turning out as did the Native Sons of the Golden West.

Mrs. London was present, as were a number of women, and the bust of Jack London was appropriately unveiled while the Hawaiian boys played the favorite Hawaiian airs that the California writer so loved. There was no chairman. I just surprised the San Franciscans and had each speaker introduce the next. It was voted a splendid success. The papers gave the affair columns and even editorials, but in spite of the speeches and the compliments paid to the Hawaiian Hands-Around-the-Pacific idea, there is a tendency here in the press to claim the Pan-Pacific Union as its own.

## OXMAN ACQUITTED, THEN REARRESTED

(Associated Press by U. S. Naval Wireless.)  
SAN FRANCISCO, Cal., Sept. 29.—F. C. Oxman, the wealthy Oregon cattleman and one of the chief witnesses against Mooney in the "Preparedness Parade Bomb Plot Trial," was acquitted by the jury before which he has been tried for perjury and released yesterday afternoon but was immediately rearrested on other charges of perjury which were preferred by the sister-in-law of Mooney.

## ARMY NEEDS TO GET ATTENTION FROM SOLONS

Foremost among the matters that will require the attention of the congressional delegation upon its arrival here will be the needs of the local military department, according to Delegate Kuhio, who has received a letter to this effect from S. Hubert Dent, Jr., of Alabama, chairman of the committee on military affairs.

Delegate Kuhio said today that he believes there will be about 60 in the party. He expects to get the full list on the next steamer.

Eight senators and 18 representatives so far have agreed to come to Hawaii. The former are Senator W. H. King of Utah, Senator Henry L. Meyers of Montana, Senator Miles Poindexter of Washington, Senator Charles Curtis of Kansas, Senator J. C. W. Beckham of Kentucky, Senator John B. Kendrick of Wyoming and Senator Warren G. Harding of Ohio.

Those who have conditionally accepted to come are Senator Harry S. New of Indiana, Senator Albee Pomoren of Ohio and Senator Robert F. Brewster of Louisiana.

The representatives who have signed up for the trip are: C. C. Carlin, Virginia; Warren G. Harding, Ohio; Charles F. Reavis, Nebraska; Lascius Lazzaro, Louisiana; Thomas Gallagher, Illinois; William Kettner, California; L. L. Lenroot, Wisconsin; George White, Ohio; Harold Knutson, Minnesota; J. Charles Linthicum, Maryland; James P. Buchanan, Texas; W. P. Wood, Indiana; J. J. Esch, Wisconsin; S. Hubert Dent, Jr., Alabama; Sam J. Nicholls, South Carolina; Frederick S. Hicks, New York; Sydney E. Mudd, Maryland; and Gordon of Mississippi.

Representative Kettner of California, who visited the territory as a member of the last congressional party, is coming back to look over the field with a view to impressing on others the urgent need of pushing the breakwater and harbor projects at Nawiliwili, Kauai, to completion. Through his hard work, he secured an appropriation for Nawiliwili.

## CIVIL SERVICE EXAMINATION LIGHTHOUSE SERVICE

Keepers and Assistant Keepers.

The local civil service board for the 19th lighthouse district will hold an examination on Oct. 10, 1917, at Honolulu, T. H., for establishing a register of eligibles from which appointments of keepers and assistant keepers of lighthouses will be made for duty in the 19th lighthouse district when vacancies occur.

The examination will consist of the subject mentioned below:

Subjects: Physical ability ..... 4  
Training, experience and fitness ..... 6

Total ..... 10  
Civil service blanks properly filled out by the applicant and submitted in person or by mail constitute the examination.

Application blanks may be obtained on applying to the office of the lighthouse inspector, 311 McCandless building, Honolulu, T. H., or the undersigned.

Applicants must be citizens of the United States, 21 years of age or over, and able to handle boats.

JOHN W. SHORT,  
District Secretary, Civil Service Commission.

In an air battle between German airmen and Americans in the French Escadrille, Corporal Campbell of Chicago brought down two German machines and Corporal Lowell of Boston brought down one making his total of three machines.

## LEARN ELECTRICITY

Enter this profitable profession now while the opportunities for electrical experts are created. Your success in electricity depends upon the thoroughness of your training. Electricity is a wonderful profession and a mighty big one, and it demands thousands of trained men yearly—men with ambition—men with energy—men with knowledge. Actual knowledge must come from actual practice. There is big money in electricity for the real expert. You can become an electrical expert in six to eight months.

Come to Electrical Headquarters

The New York Electrical School is the foremost institution in the country devoted to the sole purpose of fitting men for electrical expert positions. 4500 graduates of N. Y. E. S., all holding fine businesses, are a tremendous testimonial to the efficiency of our learn by doing methods.

Complete Electrical Equipment

You work with specialists in each branch of electricity, using the latest and most complete apparatus. Detailed instruction in the theory, operation, construction and installation of the various electrical apparatus and systems, as well as calculating, testing, trouble locating and electrical drafting.

The New York Electrical School gives you the theoretical knowledge of the electrical engineer, together with the ability to apply this knowledge which comes only from actual practice.

The whole idea of the N. Y. E. S. is to train men for immediate expert electrical work upon graduation. Every man who wants to enter the electrical profession should write for the N. Y. E. S. catalogue—sent free upon request. Visitors Welcome.

Rich Milk thoroughly Purified

That in a sentence sums up Highlander Condensed Milk (full cream). There are very definite and real reasons for its superiority.

First of all the milk is the world's finest. New Zealand's dairy conditions and legislation are the world's model—its dairy products top the world for the price because of their quality. Highlander Condensed Milk is prepared from the purest and richest milk of the specially selected herds in the rich dairying pastures of Southland. The cows are subject to Government inspection, and the milk is drawn from each cow under exceptionally rigorous conditions of cleanliness.

It is then immediately filtered and cooled at the dairies. Next it goes to the great model Highlander Condensaries—cleanliness personified.

Here it is again filtered and subjected to a process which destroys all disease germs. Part of the water is removed by evaporation in vacuo, and a proportion of the finest No. 1A sugar is added.

Highlander Condensed Milk is full cream—the richest, purest milk, less part of the water. More economical than fresh milk—there is no water—use what is wanted, the remainder is available for further use.

Hygienic, uniform, handy, always ready, it is cheaper, more reliable. For cooking it is far superior to ordinary milk—try it.

There are hundreds of recipes in the big 200-page beautifully illustrated Highlander Cook Book.

## Cumulative Effect

THE power of your printing to pull is not ended on its first advent into the hands of your customer. It has a well defined accumulative effect commensurate with the quality of the work. If it is correct in plan, principle and purpose, its strength will lie in the future as well as in the present. It has a continual pull.
